## BUCKET SHOPS FIGHT FOR LIFE

Combine Together to Contest  
the Woodward  
Law.

### FEW FERTILIZERS BEING USED

The City in Danger From Lack  
of a Fire  
Engine.

(Special to The Times-Dispatch.)

RALPHIGH, N. C., March 10.—It is announced here that the bucket shops or exchanges in various parts of the State have joined in the matter of retaining counsel for the purpose of contesting the Woodward anti-bucket shop law, passed by the recent Legislature, the fight to be on the ground that the amendment exempting manufacturers and wholesale dealers renders the act unconstitutional.

For the present Ware & Leland, who conduct the exchange, have a sign posted to the effect that they are taking no new business, but have their exchange open for the benefit of former customers. A severe thunderstorm, the first of the season, passed over the city last evening, the rainfall being 3.8 one-hundredths of an inch. This is taken to mean that spring is upon us, although there are no signs as yet of buds putting out.

The total receipts of cotton on this market for the season to date is 11,830 bales, against 13,334 to the corresponding date last year.

### DECREASE IN FERTILIZERS.

Reports received in the Department of Agriculture indicate that there will be a falling off of fifty per cent. or more in the sale of fertilizers for cotton. In this county fertilizer dealers say the falling off will be seventy-five per cent. Although there will be considerable increase in the acreage of tobacco and fertilizers will be used for this. Many cotton farmers propose to plant without fertilizers and others are making their own fertilizers. A severe extent than heretofore. The Raleigh Lodge of Elks have just organized a construction company for the erection of their handsome new home on Salisbury Street, near Martin. The building is to cost \$25,000 and work is to begin by June 1st. The plans are by C. V. Raleigh, and comprise bowling alleys and swimming pool in basement, offices on the first floor, parlors, reading room and gymnasium on second and billiards and coat room and library on third. There will be a roof garden. The Secretary of the Elks is C. V. Raleigh, the incorporators being P. A. Fore, E. B. Christian and Anne B. Fore. The Aldermen of Raleigh held a special session to-day and voted to purchase a new fire engine, as the old one, purchased before the city was incorporated, is worthless from long service. The town is really in great danger should fire start. In one of the taller buildings in the business section as the force of the water from the tower would not reach the tops of these buildings. The situation is really regarded as serious.

**RALPHIGH PRIMARY.**  
It is understood that the Raleigh primary for the May election for Mayor and other officers in Raleigh will be called for April 15. A local plan for a system, bordering on the Australian system, is to be used for the first time, it having been enacted for the city by the recent Legislature.

The jury in the case of Cunningham & Hinesham vs. the Seaboard Air Line, involving \$2,000 damages for the burning of cotton in the Hamlet compress fire two years ago, returned a verdict to-day after being out twenty-three hours, the finding being that the fire was not due to any negligence on the part of the railway company, which was not therefore liable. There is another case growing out of the same fire that has been postponed to the next term of the court, in which damages is being sued for on account of the burning of Mr. Wilson, bookkeeper in the office of the compress.

The continuance was ordered before the case just disposed of came up, and the verdict just rendered may result in the abandonment of the Wilson case.

State Treasurer B. R. Lacy will go to Wilmington Saturday and deliver an address before the Y. M. C. A. Saturday afternoon. He will be the guest of Mayor Springer while in Wilmington.

State Auditor B. F. Dixon finds that the cost of the Legislature just adjourned was \$3,176.14, and there may be odds and ends of the same in the next session.

The cost of the 1935 session was \$6,000. Possibly a thousand dollars of the additional cost of the recent session was due to expenses connected with the Code Commission and the Code Committee.

### COTTON STATEMENT.

Considerable Increase Noted in Past Ten Days of March.

(By Associated Press.)

NEW ORLEANS, March 10.—Secretary Hester's weekly cotton statement, issued to-day, shows for the ten days of March an increase over last year of 12,000 and an increase over the same period year before last of 6,000. For the 31st days of the season, that have elapsed, the aggregate is ahead of the same days of last year, 1,918,000 and ahead of the same days year before last, 1,816,000.

The amount brought into sight during the past week has been 226,925 bales against 114,119 for the same seven days last year and 17,115 year before last.

The movement since September 1st, shows receipts at all United States ports to be 7,314,899 against 6,321,601 last year. Overland across the Mississippi, Ohio and Potomac Rivers to Northern mills and Canada 737,939, against 821,760 last year. The total movement since September 1st, is 9,052,738, against 8,143,361 last year. Foreign exports for the week have been 31,253, against 3,661 last year, making the total thus far for the season 5,881,771, against 5,003,140 last year.

The total takings of American mills, North, South and Canada, for the week to the season have been 2,552,428, against 3,329,570 last year.

The movement during the twenty-nine leading Southern interior centers have decreased during the week 30,292 bales, against 12,494 during the corresponding period last season of 24,236. Including stocks left over at ports and interior towns from the last crop and the number of bales brought into sight to date is 10,685,710, against 9,703,362 for the same period last year.

The world's visible supply of cotton shows the total visible to be 4,122,424, against 3,430,100 last week, and 3,414,100 last week. Of this the total of American cotton is 3,065,491, against 2,414,100 last week, and 2,433,000 last year, and of all other kinds, including Egypt, Brazil, India, etc.,

1,107,000, against 1,108,000 last week, and 1,100,000 last year.

Of the world's visible supply of cotton there is now about and held in Great Britain and Continental Europe 2,604,000, against 2,322,000 last year; in Egypt 185,000, against 241,000 last year; in India 637,000, against 591,000 last year; and in the United States 1,246,000, against 917,000 last year.

(X) Corrected by deduction of 18,889 bales Stuyvesant docks fire taken from week ending March 3d.

### SOMEbody ATE RING AND DOESN'T KNOW IT

(Special to The Times-Dispatch.)

SOUTH ORANGE, N. J., March 10.—Many a mother's heart is near breaking from suspense to-day, all because of a birthday party given on Tuesday by Mr. and Mrs. William Graves, of Centre Street, South Orange, to their son, Leo Graves. There was a birthday cake, with a ring inside.

After the cake had disappeared the child was asked where the ring was. The child had seen it. Consternation reigned. None of the children have developed appendicitis, nor do any of them recall where they are shaken.

### TOOK SEVENTY POUNDS OF PENNIES TO BANK

(Special to The Times-Dispatch.)

ROCKFORD, ILL., March 10.—Nellie Mason, a school girl in this city, surprised the officials of one of the local banks by pulling a toy wagon inside the counting room. Then she took the cover from the load the wagon contained and there lay 70 pounds of pennies. There were 11,200 of them, done up in packages of twenty-five each. With the lot she asked a savings account with \$110 to her credit.

The pennies had been given to her by her father, who is a small merchant in the residence part of town.

### SCHOLARS' WAR SPLITS BOARD OF PA. MUSEUM

Hilprecht Wrangle Over "Nippen Tablets" Causes Wide Breach.

(Special to The Times-Dispatch.)

PHILADELPHIA, Pa., March 10.—Faction between the managers of the Department of Archaeology and the trustees of the University of Pennsylvania has culminated in open rupture, and four of the managers of the department, which controls the Free Museum of Science and Art, have tendered their resignations. The dispute which has been rounded in the controversy can be judged when it is known that those who sever their connection with the institution are Mrs. Cornelius Stevenson, president, and three of her friends and sympathizers, Samuel T. Bodine, vice-president of the board, William H. Furness, 3d, treasurer, and Calvin Wells, chairman of the Egyptian and Mediterranean section.

Mrs. Stevenson, one of the most intellectual women in Philadelphia, has made the museum her pride and life work. It was the apple of her eye.

She gave liberally of her own means and gained support from others in behalf of her pet institution, and in her resignation she has not concealed her puny but determined fight for her life. Her letter to the trustees gives little hint of the real cause of strife.

Another member of the board, however, declared flat-footedly that the relations between the managers of the museum and the trustees of the University had become intolerable.

In the sea of trouble boils up the controversy with Dr. Hermann V. Hilprecht as to the authority of the "Nippen Tablets" and the Temple Library, the discovery of which has given to Dr. Hilprecht an international reputation. More resignations are hinted at, and a general reorganization of the museums is probable.

**NOTHING TO FEAR.**  
The question of injurious substances in medicines which has been agitating the minds of many people, does not concern those who use Chamberlain's Cough Remedy. Mothers need have no hesitancy in continuing to give it to their little ones as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but it is a medicine of great worth and merit. It has a world wide reputation for its cure of colds, coughs and croup and can always be relied upon. For sale by all druggists.
